

Activity 3 output

```
class Teacher {  
    int teacherId;  
    String subject;  
  
    public Teacher(int teacherId, String subject) {  
        this.teacherId = teacherId;  
        this.subject = subject;  
    }  
}  
  
public class Main {  
    public static void main(String[] args) {  
        Teacher t1 = new Teacher(501, "Mathematics");  
        System.out.println(t1.teacherId);  
        System.out.println(t1.subject);  
    }  
}
```

OUTPUT:

```
501  
Mathematics
```
